

Scabs are fun fabric sticker patches. They were originally designed to mend the knee area of children's clothing but our customers have made them so much more!

Put them on your jeans, your back pack, a jacket – even your baseball hat.

COLLECT different Scabs and TRADE with your friends.

FUN FABRIC STICKER PATCHES

Scabs are machine washable and dishwasher safe. No ironing or sewing is required! Scabs stick- and stay stuck- to everything from jeans and backpacks to bicycles and stainless steel water bottles. Scabs will even stick to inflatable toys and mattresses. This means that not only can Scabs easily mend any item of clothing but they can also be used to personalize and accessorize all your belongings. Scabs are created, designed and manufactured in Canada. New collections including Seasonal Collections, the 'Alphabet' Collection and 'Colour Your Own' Scabs will be coming in 2010/2011.

The Original Collection

This Collection of Scabs consists of 12 designs that appeal to the imagination of young children. These Scabs are 5 inches in length and 3 inches high. They are large enough to mend a tear that runs seam to seam in the knee area of children's pants. They can also be cut to any size without ripping and tearing.

The Community Scab
2010

The Button Collection

Due to the demand from older children and adults, Button Scabs were created. There are 15 designs that are 2 ½ inches in length or diameter. Button Scabs are ideal for smaller tears or for accessorizing belongings. Permanent ink markers work beautifully on these Scabs so individuals can personalize their Scabs. One dollar from the sale of each Community Button Scab will be donated to the Pediatric Oncology Group of Ontario, POGO.

The Allergy Alert Collection

Allergy Alert Scabs were designed to help parents keep their young children's allergies top of mind. These Scabs are approximately 3 inches in height and feature Scabbee, the friendly red monster who makes Scabs, and his friends Goop, Cottonball and Brainfreeze. The words CAUTION FOOD ALLERGY remind caregivers in daycares and preschools about their young students' allergies. Parents can write their child's specific allergies on the Scabs.

The Safety Collection

These Scabs are printed on the same reflective material as found on police cars. Safety Scabs are ideal for outerwear, bikes and scooters. They keep children and adults visible and thus safe.
